May 12, 1977

Dear Correspondent,

I did get your message from the answering service and have been trying to get myself to compose a note to you, but then I realized I had nothing to say to you. However, I thought I'd better make up something so you wouldn't be too depressed. Have you tried Elavil?

I guess you'd better let me know when you plan to arrive, as the Anti-Smut League is planning a protest demonstration at the airport. (Apparently the news of your plans to visit S.D. was leaked to some underground press.) If you came down on Saturday, May 21st, and arrived around noon I could rescue you from any angry mobs that might assemble before I go to work. (Yes, I must work that day). I'll be off May 22-23-24. That way we can get an early start on Sunday morning and have most of the day at the Faire.

Are you planning to spend four days? I have plans for you up through Tuesday May 24. Several people have volunteered to help carry you back to the airport on Wednesday morning — Early!

If you haven't given up smoking yet, this (giving up, that is) might be an excellent time for you to start. We don't allow tobacco smoking in the house or in the car. That may be tough on you.

I'll expect a note or call from you (regarding your ETA and proposed length of stay) soon. I'm usually home ~~p~~ midnight Wed thru Sunday. If you get the answering service again just give them that info.

'Til then I remain a very together person.

Jess
